Script Hook V is the library that allows to use **GTA V** script native functions in custom *.asi plugins. Note that it doesn't work in GTA Online, script hook disables custom scripts when player goes in multiplayer.

This distrib also includes the latest **Asi Loader** and **Native Trainer**.

Installation

1. Copy ScriptHookV.dll to the game's main folder, i.e. where GTA5.exe is located.
2. In order to load asi plugins you need to have asi loader installed, you can download it separately or use the latest version that comes with this distrib (*dinput8.dll*).
